

Lieferumfang

Art.-Nr. Z 240

Maße und Trinkwasseranschlüsse

Art.-Nr. Z 303

Nur bei Vorwandmontage erforderlich!

1. Montage in Metallständerwand

2. Vorwandssystem mit Leichtbauprofilen

(A)

Art.-Nr. Z 200

1 Maß nach entsprechendem Abwassersystem wählen

Art.-Nr. Z 240

Art.-Nr. Z 303

T ≤ 200 - 300 mm

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

3. Vorwandssystem mit M-TEC-Profiltschiene

Art.-Nr. PFS 1 (1 Stk.)
 Art.-Nr. PFS 6 (6 Stk.)
 L = 3 m

Art.-Nr. Z 225

Art.-Nr. Z 200

Art.-Nr. Z 204

1 Maß nach entsprechendem Abwassersystem wählen

Art.-Nr. Z 240

Art.-Nr. Z 303

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

4. Vorwandssystem mit M-TEC-Profilschiene

Art.-Nr. PFS 1 (1 Stk.)
 Art.-Nr. PFS 6 (6 Stk.)
 L = 3 m

Art.-Nr. STE 1
 1100 - 1300

Art.-Nr. Z 204

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 oder 1 x 18 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

Technische Änderungen vorbehalten. Die Montage und Installation zu angrenzenden Gewerken muss nach den anerkannten Regeln der Technik und gültigen DIN-Normen durchgeführt werden. Die Vorgaben der Planungsanleitungen sind zu beachten.
