item.-no. 240012

Sound-decoupled mounting
clamp for drain elbow

Sound-decoupled, pull-out
plastic feet

Burda urinal element
with GroheDAL Rapido U shell set
item no. 214 019

- The elements consist of 48 mm wide profiles, so they can be perfectly installed in a 50 mm plasterboard stud wall.
- Thanks to their generous profile width the GKF construction panels can be easily aligned to butt joints and comfortably with a distance to the edge - this provides additional additional safety, saves time and prevents material break-out.
- Fastening the building boards without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Panel feet 220 mm as standard extendable
- High corrosion protection thanks to sendzimir galvanised elements.
- 4-point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

suitable for all
GroheDAL prefabricated mounting set
with manual operation
and IR Tectron (6 V and 230 V)
