BS+ Washstand installation unit
Without connections item no. 212 005.00
item no. 212 005.99

- The elements consist of 48 mm wide profiles, so they can be perfectly installed in a 50 mm plasterboard stud wall.
- Thanks to their generous profile width the GKF construction panels can be easily aligned to butt joints and comfortably with a distance to the edge - this provides additional safety, saves time and prevents material break-out.
- Fastening the building boards without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Panel feet 220 mm as standard extendable
- High corrosion protection thanks to sendzimir galvanised elements.
- 4-point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

Sound insulation
DIN 4109
