my move

WC care

with folding support handles

Barrier-free WC facilities with electric height adjustment

Features:

Self-supporting drywall element made of powder-coated, self-supporting steel construction for wall and floor mounting incl. fixing material.
(Sound-decoupled with premium wall bracket) for floor floor structures 0-20 cm.
With prefabricated internal drinking water and waste water pipework, as well as internal electrical wiring

Scope of delivery:

- Without folding support handles
- With concealed cistern K840
- Electric lifting device for WC
- With glass plate RAL 9003, signal white, W/H: 500 x 1045 mm
- With radio remote control (for flush activation and automatic height adjustment)
- Fibre-reinforced, core-impregnated plasterboard front (2-ply) with all standard openings for on-site tiling
- Stainless steel protection plate for inspection work

Technical data:

- WC attachment 180 mm
- WC 30 cm height-adjustable
- Load capacity up to 350 kg

Connections:

Electrical connection: via Schuko plug (230 V AC, 50-60 Hz)
Waste water connection: DN 90
Drinking water connection: R1/2"

compatible with Duravit Sensowash®

compatible with Geberit AquaClean

BS+ WC mounting unit with flush-mounted cistern K770

for drywall construction, offers installers and planners the possibility to fall back on pre-assembled units and to plan individual solutions due to the large selection of pushbuttons.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

Optional

Sound-insulated premium wall bracket for pre-wall mounting

Item no. 240012

Sound-insulated plastic inserts for the inclusion of the PE-HD elbow connector

Sound-insulated, pull-out Plastic feet

Note:

WC support brackets for additional support of WC ceramics with a small contact surface of less than 17 cm (e. g. Flaminia, Sentique)

item no. 216400

BS+ WC mounting unit with flush-mounted cistern K770 item no. 211140.00

all toilets compatible with Duravit Sensowash®

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GFKI building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e. g. DIN 4109 etc.)
- Seal can also be used by other manufacturers
- Even easier installation thanks to the new premium wall bracket

all WCs compatible with Duravit Sensowash®

Combination examples:

Geberit WC control unit Sigma10 Round, screwable manual / for support folding handles

Geberit WC control unit Sigma10 Round manual / for support folding handles with radio transmission

Geberit WC control unit Sigma10 Round battery manual / for support folding handles with radio transmission

BS+ WC element Reno-Kit

Replacement module for existing stud walls / pre-wall installations

for drywall construction, offers installers and planners the option of using pre-assembled units and planning customised solutions thanks to the large selection of actuation buttons.

- Powder-coated, self-supporting steel construction
- Built-in, condensation-insulated cistern concealed cistern with dual flush technology
- All mounting accessories
- Adjustable footrests 0-220 mm
- 180° swivelling waste water elbow for simplified installation during renovation

BS+ WC-element Reno-Kit

with concealed cistern Burda K770
item no. 211635.00

BS+ WC-Element Reno-Kit

with concealed cistern Geberit Sigma
item no. 211630.01

Combination examples of flush buttons: see page 8 / 9

BS+ Washstand/sink mounting unit for wall fitting

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

BS+ washstand mounting unit

item no. 212029.xx

on request also with
external press connections

BS+ sink mounting unit

item no. 212012.xx

on request also with
external press connections

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKF building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e. g. DIN 4109 etc.)

Optional

Sound-decoupled premium wall bracket
for pre-wall mounting

item no. 240012

BS+ Washstand mounting unit for floor-mounted fitting

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

BS+ washstand mounting unit

item no. 212005.xx

on request also with
external press connections

BS+ washstand mounting unit

for fastening with threaded rods
item no. 212205.xx

on request also with
external press connections

Optional

Sound-decoupled premium wall bracket
for pre-wall mounting

item no. 240012

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKF building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

BS+ Washstand element for floor-mounted fitting, barrier-free design with concealed trap

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

With R 1/2 wall discs and sound absorber

Sound-insulated, pull-out Plastic feet

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKFI building boards can be installed joint to joint
- With built-in flush-mounted odour trap, connection bend and stainless steel trap cover
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

BS+ Washstand mounting unit, barrier-free design
with concealed trap Haas OHA 3500
item no. 212136.xx

on request also with external press connections

incl. accessories

concealed siphon Haas OHA 3500

Optional

Sound-decoupled premium wall bracket for pre-wall mounting

item no. 240012

BS+ Washstand element for water meter and flush-mounted shut-off valve

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

1/2" female thread
at the front
3/4" female thread
to the rear

Sound-insulated, pull-out Plastic feet

- Made of galvanised, self-supporting and sound-insulated steel construction,
- With mounting plate for variable washstand mounting,
- With swivelling siphon elbow DN 50,
- With all installation accessories for unit and washstand,
- 2 concealed fitting combinations
Gunmetal water meter shut-off valves, incl. extension with 1/2" internal thread for connecting washstand angle valves, incl. insulation; gunmetal in accordance with DIN-EN 1982 and DIN 50930 Part 6, sealing elements made of EPDM (KTW, W270 tested). 2 UP single-pipe connection for MTK / MTW-NG (2" EAS KOAX) incl. dummy cover and seal set.
- 2 upper parts for the barrier, chrome

BS+ Washstand mounting unit,
with angle valve connection option
item no. 212028.00

BS+ Washstand mounting unit,
without angle valve connection option
item no. 212028.99

Optional
Pre-assembled shut-off valves (set of 2)
item no. 960056

Optional

Sound-decoupled premium wall bracket
for pre-wall mounting

item no. 240012

BS+ Linear washstand element, 112 cm for free-standing fitting

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

Example 212041.00

BS+ Linear Washstand element, 112 cm for free-standing fitting

Universal, 2 stations

2 x free-standing fitting, 1 x centre drain

W/H/D 1000/1120/70 mm (with drain)

item no. 212040.xx

on request also with
external press connections

BS+ Linear Washstand element, 112 cm for free-standing fitting

Universal, 2 stations

2 x free-standing fitting, 2 x drain

W/H/D 1000/1120/70 mm (with drain)

item no. 212041.xx

on request also with
external press connections

Note:

Drawing of the washstand used in the case
of an order submit with

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKFI building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)

suitable for
Geberit prefabricated installation set
HyTronic and HyTouch

Sound-decoupled mounting
clamp for drain elbow

Sound-decoupled, pull-out
plastic feet

BS+ Urinal element
with Geberit Universal shell set
item no. 214712

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKF building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

Optional

Sound-decoupled premium wall bracket
for pre-wall mounting

item no. 240012

BS+ Urinal element with Burda Flowtronik universal shell set

for drywall construction, offers installers and planners the option of using pre-assembled units.

Sound-insulated with premium wall bracket for pre-wall mounting

Sound insulation DIN 4109

Sound-decoupled mounting clamp for drain elbow

Sound-decoupled, pull-out plastic feet

- The frames consist of 48 mm wide profiles, you can perfectly built in a 50s plasterboard stud wall.
- GKF building boards can be installed joint to joint
- Fastening the construction panels without pre-drilling
- Sound decoupling as standard integrated (all red plastic parts)
- Element feet standard 220 mm extensible
- High corrosion protection due to sendzimir galvanized elements.
- 4 point fastening
- All current standards are complied with (e.g. DIN 4109 etc.)

BS+ Urinal-Element
mit Burda Universal Rohbauset Flowtronik
item no. 214800

Programmable
via Android app

Necessary accessories
concealed urinal flush control
with trap sensor, mains operation
Burda Flowtronik

item no. 5214854

Optional
Sound-decoupled
premium wall bracket
for pre-wall mounting

item no. 240012

BS+

Wall-mounted sink element with concealed cistern Geberit Sigma, concealed cistern Geberit Delta or concealed cistern Burda K770 prepared for wall fitting

Areas of application: Day care centres, hospitals, nursing homes, etc.

Laufen Bernina

with cistern Sigma item no. 211057.01
with cistern Delta item no. 211061.99
with cistern K770 item no. 211065.00

Geberit Publica (formerly Keramag Espital)

with cistern Sigma item no. 211060.01
with cistern Delta item no. 211062.99
with cistern K770 item no. 211066.00

suitable for: Drywall and pre-wall

- Self-supporting sendzimir galvanised and sound-insulated 48 mm steel frame
- Height-adjustable traverse fitting 770-1250 mm
- Water connection at the rear or top centre
- Building protection for service openings protects against moisture and dirt
- Without wall-mounted sink

Optional

Sound-decoupled premium wall bracket for pre-wall mounting

item no. 240012

BS+

Fitting plates and traverses Suitable for Dry construction

- Made of galvanised sheet metal construction
- With lateral fastening option on CW profiles of a stud wall
- With all mounting accessories

BS+ Universal Traverse for surface-mounted fittings / tap valve

with 2 wall discs, 1/2"
item no. 215005.00
on request also with
external press connections

with 1 wall discs, 1/2"
item no. 216209.00
on request also with
external press connections

BS+ Universal Traverse for kitchen sink

with 2 wall discs, 1/2"
and drain elbow DN50
item no. 216100.00
on request also with
external press connections

with drain elbow DN50,
without wall discs
item no. 215013

BS+ universal traverse for surface-/flush-mounted fittings (Fans, sanitary flushes and other built-in appliances)

BS+ traverse Universal
for flush-mounted fittings
fans and Hygiene flushes
depth-adjustable and with
swivelling angle
item no. 215033

BS+ Universal mounting plate (zur Aufnahme von Halte-, Stütz- und Klappgriffen)

item no. 240015

BS+ traverse for washing machine

with concealed siphon washing machine and wall disc 1/2"

Also available with external press connections

BS+ traverse for water meter

BS+ traverse for water meter
item no. 215015

- 2 concealed single-pipe connectors for MTK / MTW-NG (2" EAS KOAX) incl. dummy cover and gasket set
- 2 concealed piston valves, free of dead space and low pressure loss (DIN DVGW tested with sound insulation to DIN 4109, valve group 1)
- 4 soundproofed brackets
- 2 zweiteilige Isolierungen aus Styropor - Baustoffklasse B1 (zul. Betriebsüberdruck PB: 10 bar, zul. Betriebstemperatur TB: 90°C, Durchflusstoff: Trinkwasser)
- Made of galvanised sheet metal construction
- With lateral fastening option on CW profiles of a stud wall
- With all mounting accessories

BS+ washstand-traverse for floor-standing fitting

Version A

Version B

- Galvanised steel construction
- Mounting plate for variable washstand installation
- Swivelling siphon elbow DN 50
- Rubber nipple 32 mm
- All fastening and mounting accessories
- Fitting plate for holding the wall discs
- 2 sound-decoupled connection mountings
- Wall discs 1/2"

Version A Dimensions: W / H / D 525 / 485 / 70 mm
Version B Dimensions: W / H / D 525 / 485 / 50 mm

Note:

Replace end number .xx with .00 for standard connection 1/2" x 1/2"
.99 without connection

Version A item no. 230300.xx
with mounting plate made of plywood

Version B item no. 230301.xx
with fastening via threaded rods

surface-mounted fittings
and Geberit wall drain
item no. 235350.00
on request also with
external press connections

surface-mounted fittings
item no. 235250.00
on request also with
external press connections

Taversen are height
and depth adjustable
40-110 mm

suitable for: Drywall and pre-wall

- Self-supporting sendzimir galvanised and sound-decoupled steel frame 48 mm
- Traverse fitting, height-adjustable
- Traverse for shower head
- Pre-assembled Geberit shower drain for draining floor-level showers, Cover plastic chrome

Optional
Wall bracket for rear mounting
front wall mounting
item no. 240020

Santro

for prefabricated and finished
pre-wall installation

for the basic fit-out of small and large bathrooms
for renovations or new builds

Installation in one day

Sound insulation
DIN 4109

Why Santro pre-wall system?

- Quick and easy installation
- Simple planning (only one article)
- Clean (no dirt/debris/walls)

Completely soundproofed ex works

all WCs
compatible with Duravit Sensowash®

Geberit UP cisterns compatible
with Geberit AquaClean and chute
for cleaning cubes

Santro WC complete kit
Installation height 1080 mm
item no. 611250.01

- Pre-wall system with panelling up to 125 cm wide (incl. all standard openings)
- Single-layer 12.5 mm GKF panels
- No levelling
- Surface can be tiled immediately
- Modules already pre-planked
- Fulfils all requirements for VDI 4100
- Increased sound insulation in accordance with DIN 4109 (complete pre-wall soundproofed)
- Fulfils fire protection standard DIN 4102
- More storage space possible with built-in furniture

Santro

for prefabricated and finished
pre-wall installation

Washstand module for free-standing tap

Santro Washstand module
for free-standing tap,
Installation height 1080 mm
item no. 621258.00

- Made of galvanised, self-supporting and sound-insulated steel construction
- With single-layer (12.5 mm) GKFI construction panel, incl. all standard openings
- With sound-decoupled mounting rail
- With mounting plate for variable washstand mounting
- With swivelling, depth-adjustable siphon elbow DN 50
- With rubber nipple 32 mm
- With all mounting accessories
- With adjustable foot supports, 0-220 mm
- With 2 sound-decoupled, width-adjustable wall discs 1/2"

Santro

for prefabricated and finished
pre-wall installation

Urinal module with shell set for Flowtronik

Santro urinal module
with shell set for Flowtronik,
Installation height 1080 mm
item no. 646000
Installation height 1250 mm
item no. 646001

- Made of galvanised, self-supporting and sound-insulated steel construction
- With pre-assembled shell set
- With single-layer (12.5 mm) GKFI construction panel, incl. all control openings
- With sound-insulated mounting rail
- With adjustable traverses
- With all mounting accessories
- With adjustable foot supports, 0-220 mm

Note:

Not suitable for urinals with
with moulded-in suction siphon,
e.g. V&B Omnia Pro #7502 00,
#7503 00, #7504 00 etc.

Installation examples:

Santro Accessories

Santro shaft element

type 190
1000 / 3000 / 155-220 mm
item no. 677057

suitable for: pre-wall

For cladding shafts and pipe runs, as well as for mounting fitting plates (using spacer rails)
For bath and shower mixers or mirror cabinets etc.

Made of galvanised, sound-insulated steel construction consisting of 2 side panels, with 2 spacer rails of 3 metres each for fanning out

type 135
for reduced installation depth
1000 / 3000 / 135-160 mm
item no. 677040

Santro GKFI building board

Core impregnated,
fibre-reinforced
plasterboard

W/H/D
624 x 1075 x 12,5 mm
item no. 697024

598 x 1300 x 12,5 mm
item no. 697000

Santro intermediate support for shelf depth 190-220 mm

type 108
Installation height 1080 mm
Installation depth 190-220 mm
item no. 667409

type 85
Installation height 850 mm
Installation depth 190-220 mm
item no. 667416

For extending an extension section and for bridging distances over 625 mm wide between 2 sanitary modules etc.

Also suitable for holding tap plates, frame for installation rail (using spacer rails), adjustable in depth,
Can be used both left and right

Made of galvanised, sound-insulated steel construction

type 125
Installation height 1250 mm
Installation depth 190-220 mm
item no. 667423
